

### Why Partner With Us?

We'll work to develop solutions within our business that are specifically tailored to yours. We have the capabilities to create custom colors, do partial to full fabrication, thermo-form parts and more!

We're driven by material science to continuously innovate what's possible. Our material goes through rigorous testing to guarantee performance and is unmatched in strength and durability.

### WHAT CAN WE CREATE TOGETHER?

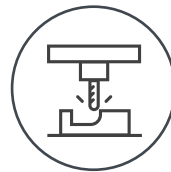

#### BEAUTIFUL COLORS & TEXTURES

Full spectrum of colors and industry leading finishes, from stock to custom.

#### ENDLESSLY CUSTOMIZABLE

Any shape, any length, any color.

#### HIGH WORKABILITY

Fabricates like wood with the same tools and methods.

#### ENVIRONMENTALLY-FRIENDLY

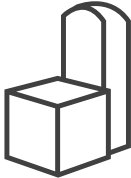

Made from recycled materials in a closed-loop process.

We help you create limitless possibilities by providing the highest performing material available.

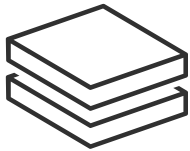

## Product Families

### DIMENSIONAL LUMBER

- Standard shapes in common cross sections
- Thicknesses from 1/4" to 12", widths up to 48" and any shippable length
