(57) **CLAIM**  
We claim the ornamental design for a wood-grained polymer  
board, as shown and described.

**DESCRIPTION**  
FIG. 1 is a perspective view of a wood-grained polymer  
board in accordance with our new design; and,  
FIG. 2 is a top plan view of the wood-grained polymer board  
of FIG. 1.  
The wood-grained polymer board is shown with a symbolic  
break in its length, width, and height. The appearance of any  
portion of the article between the break lines forms no part  
of the claimed design. The broken lines depict portions of  
the wood-grained polymer board that form no part of the  
claimed design.
